This class will be a technique class, so no particular surface will be required. You will however be completing a painting during this lesson. You will learn some of the very basic strokes of this style of painting. Each lesson will build upon the previous lesson until you have learned the various strokes needed to paint lovely hand painted gifts, home décor and even home accents. We will intersperse seasonal designs within the class curriculum. This is a great class for beginners with plenty of individual attention to help you progress.
